

Wltoys 18405 High-speed Remote Radio Control Car Drift Climbing Racing RC Car toys 4WD Off-road Vehicle

**Professional level remote control climbing car, speed more than 25 km/h, remote control distance greater than 60 m based on high quality explosion-proof engineering material shell, shock-proof off-road performance.**

Battery:6.4 v 500 mah lithium battery
Frequency:2.4g
Charging:Usb regulated charging data cable
Accessories included:Manual, usb voltage regulator, small cross sleeve:Drive Motor 380 strong carbon brush motor
Additional features:Structural control simulation

**High imitation car shell, anti-collision and explosion-proof engineering grade pvc**

**Usb self-regulated data cable, through testing and inspection, does not distinguish the charging plug from plug and play.**

USB  
MODEL: LJ-0640600  
INPUT: DC 5V 2A  
OUTPUT: 6.4V  $\pm$  600mA
