

New Fei Lun FT011 2.4G Racing RC Boat 55km/H High Speed Brushless Motor Water Cooling System 4Channels Speedboat

Item specifics

- Brand Name:
Fei Lun
- Features:
Remote Control
- Type:
Boat & Ship
- Remote Distance:
100–150m
- Charging Time:
About 180min
- Control Channels:
4 Channels
- Warning:
keep away from fire
- Model Number:
FeiLun FT011
- Frequency:
as detail
- Barcode:
Yes
- Power Source:
Electric
- Dimensions:
65.00 x 12.00 x 15.00 cm / 25.59 x 4.72 x 5.91 inches
- Controller Mode:
MODE2
- Design:
Speedboat
- Age Range:
> 14 years old,8–11 Years
- Max Speed:
55km/h
- State of Assembly:
Ready-to-Go

- Material:
Metal, Plastic
- Action Time:
5~6mins
- Charging Voltage:
14.8V
- Remote Control:
Yes

Product Description

Description:

Large and swift, Fei Lun FT011 brushless RC boat is so appealing. It is the awesome shark that can drift on the water in an impressive way. With its moving tail, the water flow will not affect its direction. You do not need to wait for the still water, the cabin is fully protected against water. In case it capsizes, Fei Lun FT011 will automatically turn upward. Enjoy racing and the excitement that the RC boat brings to you!

Main Features:

- **55km/h high speed** with the brushless motor, gives you the amazingly thrilling sailing experience
- **Water cooling system** effectively provides a favorable working environment for the electronics inside
- **Automatically corrects deviation.** Reach the destination without being affected by the water flow
- **Self-righting function** - no worry about capsizing. It flips upward after being turned upside down
- **Extremely waterproof** with the protection of the rubber ring on the edge of the two covers
- Powered by the rechargeable 14.8V 30C **2200mAh high-capacity lithium-ion battery**

Specifications:

Maximum speed: 55km/h

Brushless motor size: 5 x 3cm

Boat battery: 14.8V 2200mAh 30C lithium-ion (built-in)

Powerful Propulsion System

With the efficient brushless motor and swaying rudder, go to the destination as fast as possible without going off-course.

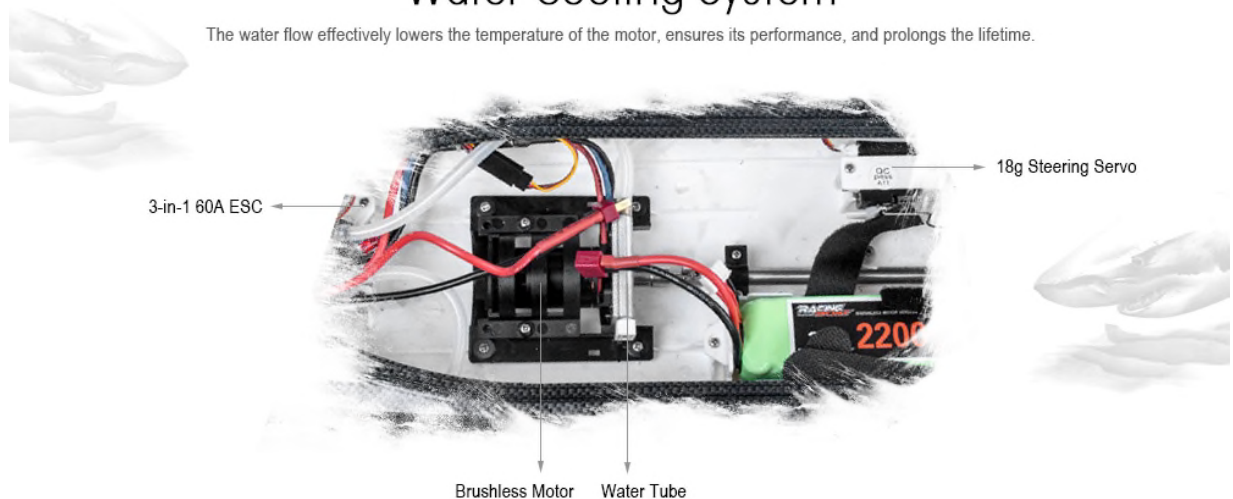

2.4GHz Radio Control

With the 2.4GHz transmitter, you can control your boat farther away to compete with others, and have great fun.

150m Control Distance

Water Cooling System

The water flow effectively lowers the temperature of the motor, ensures its performance, and prolongs the lifetime.

Powerful Propulsion System

With the efficient brushless motor and swaying rudder, go to the destination as fast as possible without going off-course.

Self-righting Function

Enjoy hassle-free sailing. With the gravity sensor, the RC boat can turn upward automatically in case it capsizes.

Double Waterproof Protection

No longer afraid of wild winds and huge waves! Because the rubber ring on the cover ensures the waterproofness.

Product Details

Sharp V-hull design with protective cover - safer & faster

Streamlined shape and hydrodynamic lines - low resistance
