

Hubsan H117S Zino GPS 5G WiFi 1KM FPV with 4K UHD Camera 3-Axis Gimbal RC Drone Quadcopter

-  Ultra HD 4K
-  Transmission Distance :1KM
-  Three Axis Gimbal
-  WiFi Transmission Signal For Video And Control
-  Image Tracking
-  Panorama Photography
-  Line Fly Mode
-  Max Flight Time 23 Minutes

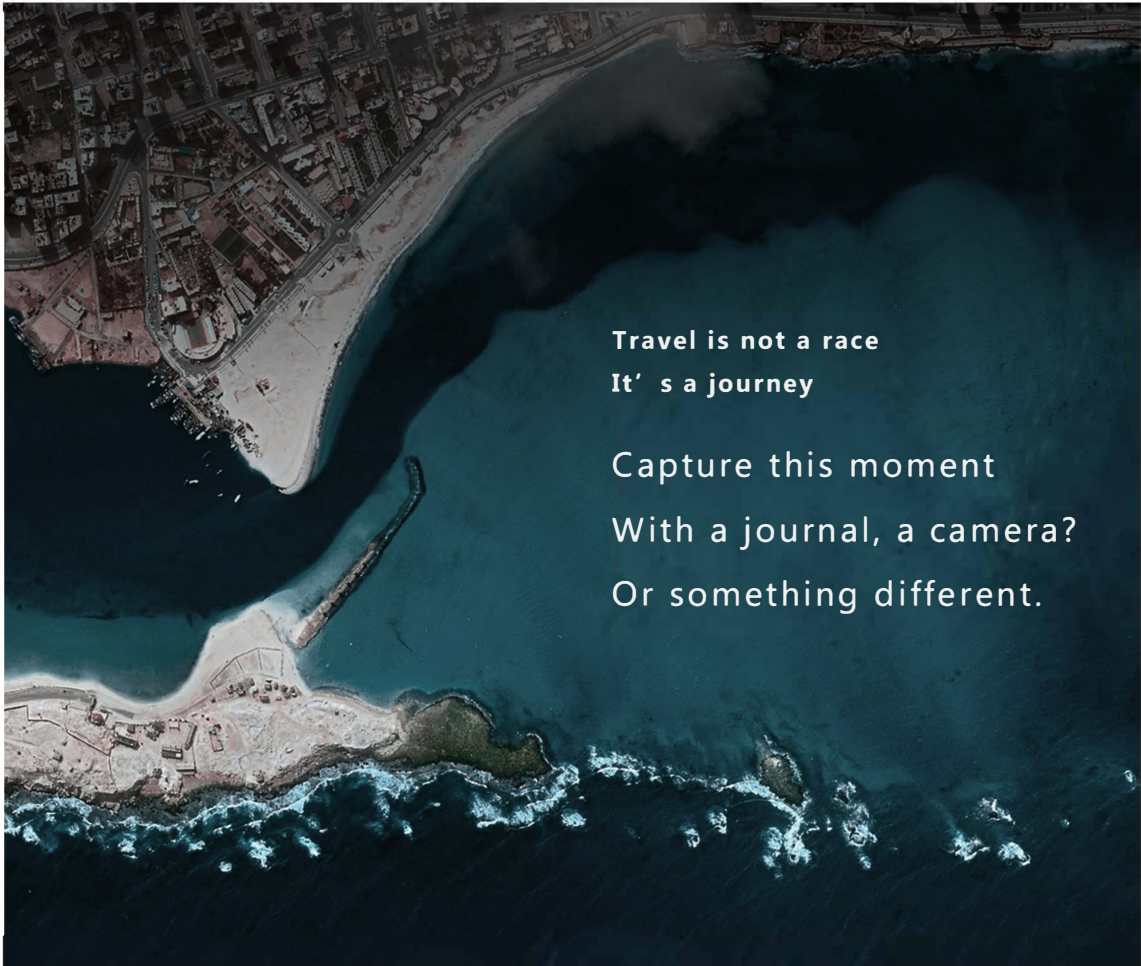

Size: L304.6*W252.4*H90mm
Max Flight Time:23 minutes
Flying Weight :700g(propeller guard not in
Drone battery: Intelligent Battery 11.4V 30
Motor Brushless Motors
Charging Time- 180 Minutes
Built-in 4K high-performance camera
Transmission Distance: 1KM
HD WI-FI video transmission
FPV:Immersive Experience
Flight Control Failsafe/Low Power Failsaf
GPS/Follow Me/Headless/RTH
Processor: Ambarella A12
Sensor model: IMX258
Video format :MP4
Picture format:JPEG

- 1 X Aircraft
- 1 X Intelligent Flight battery
- 3 X Batteries for Drone
- 1 X Digital Battery Capacity Checker
- 1 X Carrying Case
- 1 X 64GB SD Card Class 10 43
- 1 X Charge Cable for Imax B6 Mini Charger
- 1 X HT016 Remote Controller
- 2 X Propellers (pair)
- 2 X propeller screws (pair)
- 1 X gimbal protector
- 1 X propeller Wrench
- 1 X AC Adapter
- 1 X Balance Charger
- 1 X USB Charger for Aircraft battery
- 1 X USB Charger for transmitter battery
- 1 X RC cable (Lightning connector)
- 1 X RC cable (standard Micro USB connector)
- 1 X RC cable (USB Type-C connector)

ZINO

You are the director of your life

Travel is not a race
It' s a journey

Capture this moment
With a journal, a camera?
Or something different.

Smart and portable

Record a movie of your life

Ultra HD 4K
Aerial Photography

Exquisite design

Rigorous craft

Simple and Portable

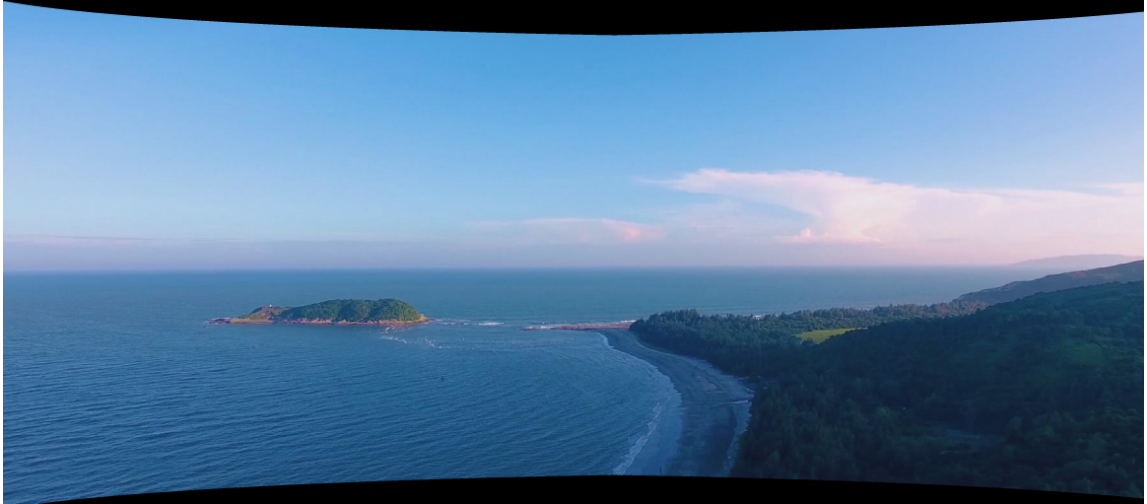

4K Ultra High Definition
3840X2160 30FPS
Ambarella sports image processor

Ultra High Definition video filming

Captures everything
The most beautiful scenes
Extraordinary journeys

Panorama

The world is a big place- but not too much for the Zino
Excellent panoramic features, let aerial photography be full of joy.

The new Zino brings a better experience from its convenient design.
All you need to do to create a 4k panoramic video is just press one button
and Zino will rotate 360° and record automatically.

Line Fly Mode

Precise and convenient.

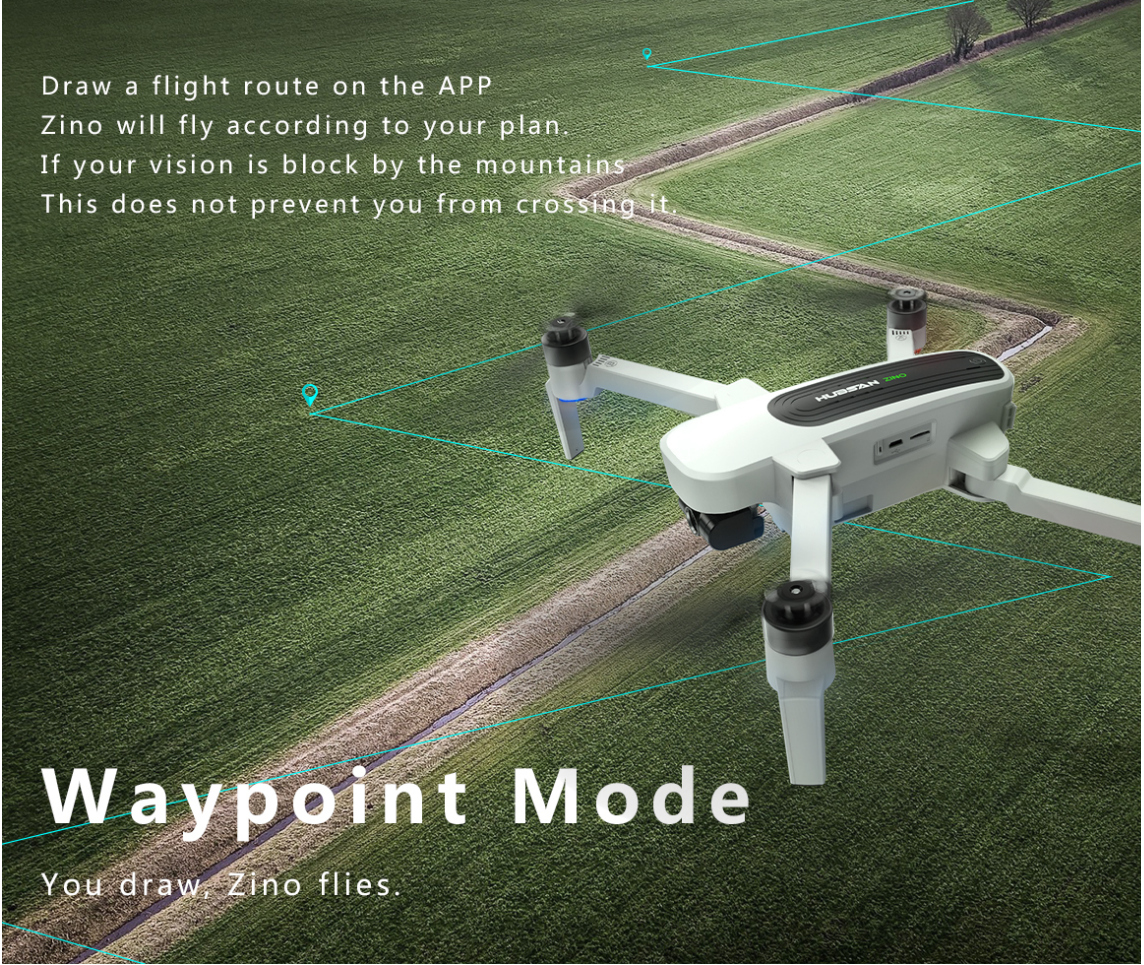

Zino flies in a straight line at a specified angle and direction that you choose
And you will be able to access the photo/video functions during flight.
Precise and elegant, like a meteor in the sky.

Image tracking

Capture every moment

Lock the target and Zino will automatically follow and keeping the target in the center of the screen. Zino is your photographer, capture the wonderful moments!

Draw a flight route on the APP
Zino will fly according to your plan.
If your vision is block by the mountains
This does not prevent you from crossing it.

Waypoint Mode

You draw, Zino flies.

Automatic
takeoff

What is the definition of convenience?
Easy to get started.
Auto takeoff and landing
Accurate to the spot

Automatic
landing

23
Minutes

Long flight time
Put more passion
In the sky

**Hovering
precision**

Small and steady
GPS + barometer
Three axis gimbal
Not only a rigorous design
But also the understanding
of flight
