

WLtoys 104009 RC CAR Brushed Motor 1/10 Remote Control Off-Road RC Drift Car 45KM/H High Speed Monster Racing Car

Features:

Four-wheel independent suspension system, high-performance suspension. Run reliably on roads and tracks and conquer all terrain.

The 550 high-power drive motor has more powerful power and can reach a speed of 45 kilometers per hour, which is faster than similar cars.

High-performance natural rubber tires improve the grip performance of remote control vehicles on the road. Anti-collision PA color printing car shell, beautiful and anti-collision.

The sealed gearbox and electronic board with waterproof and dustproof functions can be moved as usual, even on dusty or muddy roads. The high-speed ball bearings and steel drive shaft greatly increase the service life of the remote control car.

The appearance of the controller is beautiful and generous. The remote control has the functions of forward acceleration, braking, backward deceleration, and steering and throttle adjustment.

If you have any questions, please feel free to contact our store. I am honored to serve you!

Specification:

Main ingredient: PA

color: blue

Speed: 45 km/h

Working time: 8 minutes

Charging time: 3 hours

Frequency: 2.4GHz

Control distance: 100m

Motor: 550 carbon brush strong magnet motor

Server: 6kg servo

Tea is better: 7.4V 1500mAh * 1

Remote control: 4 AA 1.5V batteries (not included)

Age: 14+

Product size: 38*28*20cm

Product weight: 1977g

Note: Due to manual measurement, there may be a certain deviation.

Packaging Information:

Packing size: 59.5*41.5*43.5cm

Package weight: 3092g

Gift box set

packing list:

1 * Remote control car

1 * Remote control

1 * Remote control car battery

1 * User Guide

1 * Charger

1 * Small cross sleeve

SIMULATE HARDWARE OIL SHOCK ABSORBERS

Four-wheel independent shock absorber system, using simulate hardware oil shock absorber, can effectively reduce the vibration when driving at high speed, make the ride smooth, meet obstacles can effectively reduce the impact force, and adaptable to multiple terrains.

/For details, please refer to the manual/

2.4GHZ RADIO CONTROL 4-CHANNEL AIRPLANES

2.4GHz has great advantages, even there are other people in the operation of car in the same space, the frequency will not be interfered with the same frequency.

550 BRUSH MOTOR

Adopt 550 high power drive motor, With a speed of 45 kilometers per hour, it has a lot of power, which is faster than

the same type of car.

HIGH-SPEED BALL BEARING

The whole vehicle high-speed ball bearing, the ball ball is installed in the middle of the inner and outer steel ring, in the rolling way to reduce the friction in the process of power transmission and improve the efficiency of mechanical power transmission, greatly improving the service life of remote control vehicle.

1:10 ELECTRIC 4WD CLIMBING CAR

The body adopts explosion-resistant PVC color printing car shell, which has the function of anti-collision and anti-fall, and ADAPTS to a variety of terrain.

-  OFF-ROAD
-  DESERT
-  MOUNTAIN
-  ROCK

ROLLING FRAME

Remote control car in climbing or rugged road conditions, rolling frame can prevent the body back over.
