

# 1/16 Scale Heng Long RC Battle Tank M1A2 Abrams TK7.0 with Metal Tracks and Metal Transmission.

## Description

Report this item or seller

※Warning:

Heng Long RC tank is hobby grade but not toy grade, we expect our buyer is capable of learning how to maintain this tank, because the tank parts will wear and get glitches in running. Lacking manipulative ability will reduce your enjoyment of playing the tank.

Only suitable for players with manipulative ability.

Not suitable for people without interest to maintain the tank and exchange parts.

Not suitable for people too busy to learn from seller about how to use and maintain, though we are always kind to tell you how to use and maintain the tank.

Please be cautious to buy this hobby product, this tank is only suitable for people age above 14!

※The package includes(This tank is very heavy):

Tank

Radio controller

BB pellets

360 degree turret rotation upgrade parts

Infrared Combating Transmitter(supporting multi-player tank war)

Infrared Combating Receiver

Idle smoking generator

Smoke liquid (Maybe it can not be shipped to your country because of the shipping rules, pls forgive it.)

1800mah Tank Battery(we can provide better 5000mah-7000mah battery, please contact.)

USB Universal Charger

Kits

English manual book(Don't rely on manual book, BECAUSE sometimes the book is wrong and outdated)

※Metal Parts

Metal tracks

Metal driving wheels

Metal idler wheels

Full metal road wheels

Metal suspension

Metal return rollers (if the real tank has)

Steel gears driving gearboxes

Barrel

※Main Features:

- 1, Infrared combating system supports many players to combat in a tank war.
- 2, Metal tracks, sprocket wheels, idler wheels.
- 3, Full metal road wheels, torsion bars, better springs supporting heavier weight.
- 4, Full metal gearboxes, steel gears, better wear-resisting property.
- 5, Scale appearance of real tank.
- 6, 7.0 mainboard provides two kinds of sound for choice.
- 7, Each action acts with mimic real tank mechanical sound.
- 8, Like real tank firing, shooting 6mm BB pellets with COOL hull-recoil action and firing sound effect, and 20m shooting range.
- 9, 360 degrees limitless turret rotation.
- 10, Control barrel up and down almost 30 degrees.
- 11, Emulational tank lights of LED.
- 12, Idle Smoking like real tank from "engine", when tank runs fast the smoke gradually becomes more, but you need to drop liquid into the tank(EACH TIME ONLY DROP ONE DROP or else break)(please note maybe we can not ship liquid to some countries).
- 13, 2.4Ghz radio control system, it supports many similar tanks combating together without radio intervening.
- 14, Barrel Recoil Effect.

# U.S. A M1A2

*Main battle tank*

# REMOTE TANK *PRODUCT FEATURES*

Stepless speed  
change

4th gear strength  
switch

Dual simulation  
sound effect

Turret rotation

Fire a bullet

Omnidirectional  
driving

High and low  
speed mode

Independent  
suspension

Out of control  
protection

# 16

Scale Simulation

Compatible with  
dual flow wave box

Expand the lighting  
socket

# High simulation real restoration

U.S. M1A2 main battle tank

**The two sound effects can be switched at will**  
Realize the switching selection of sound effects of many real tanks

## All-round control is smoother

Realize the switching selection of sound effects of many real tanks

## — All in control

Remote control can be interchanged between left and right hands.

Low gear

Medium  
speed gear

High gear

**Tanks are infrared**  
**After 6 hits**  
**Accompanied by vibration**  
**Automatic flameout**

FOUR SOUND EFFECTS

**Installation of infrared receiver for combat**

# Kneading the recoil of the projectile to be launched

Restore barrel lifting and recoil with shell sound effect

barrel lift

recoil effect

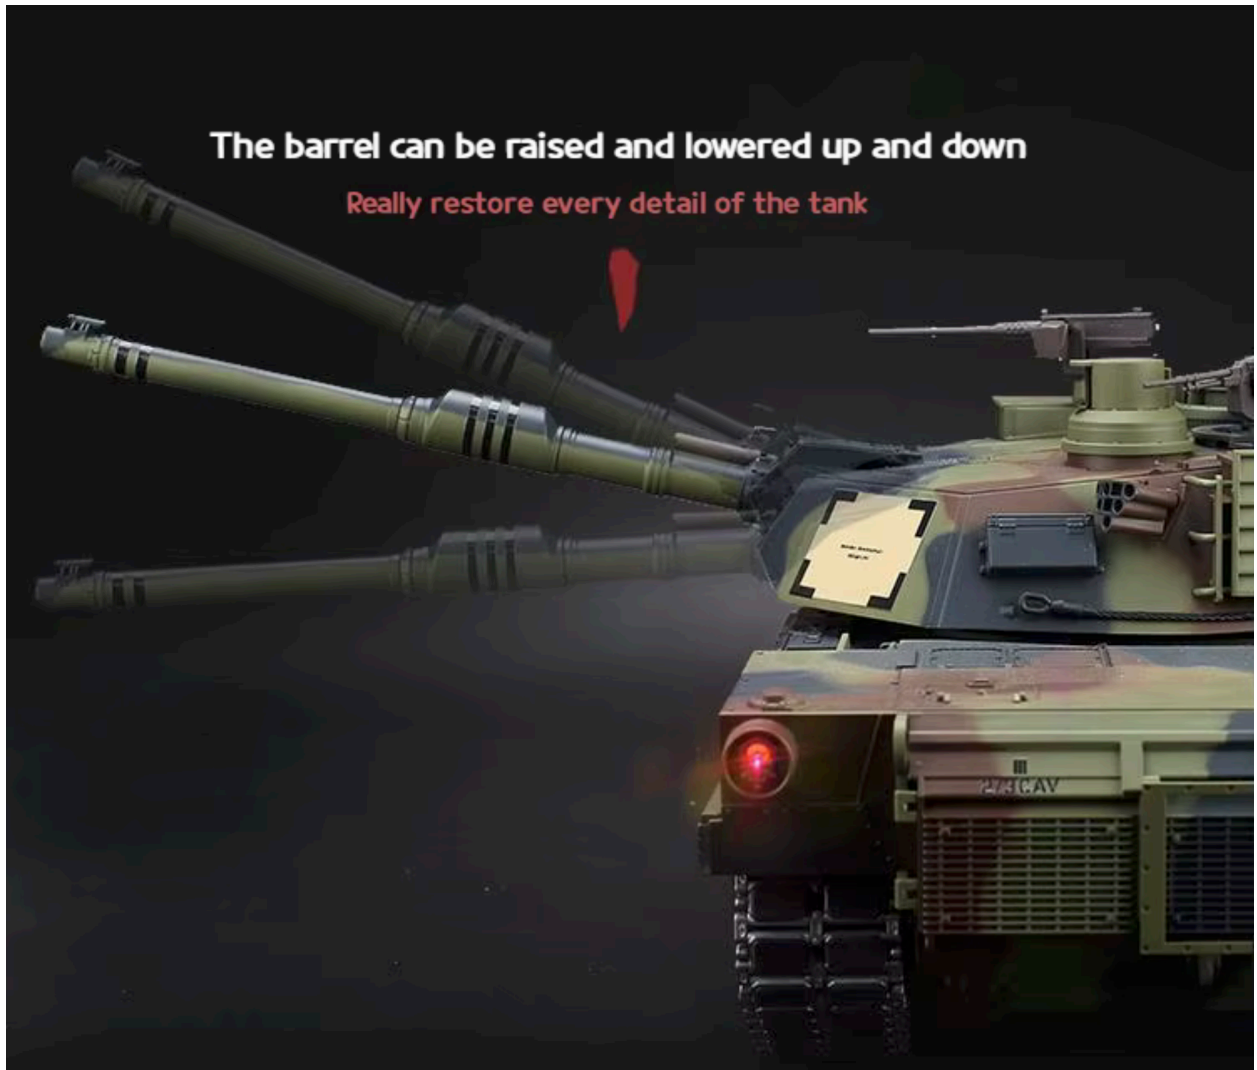

## Synchronous driving speed of thunder smoke

Simultaneously with the tank drive speed, the proportional smoke effect is presented.

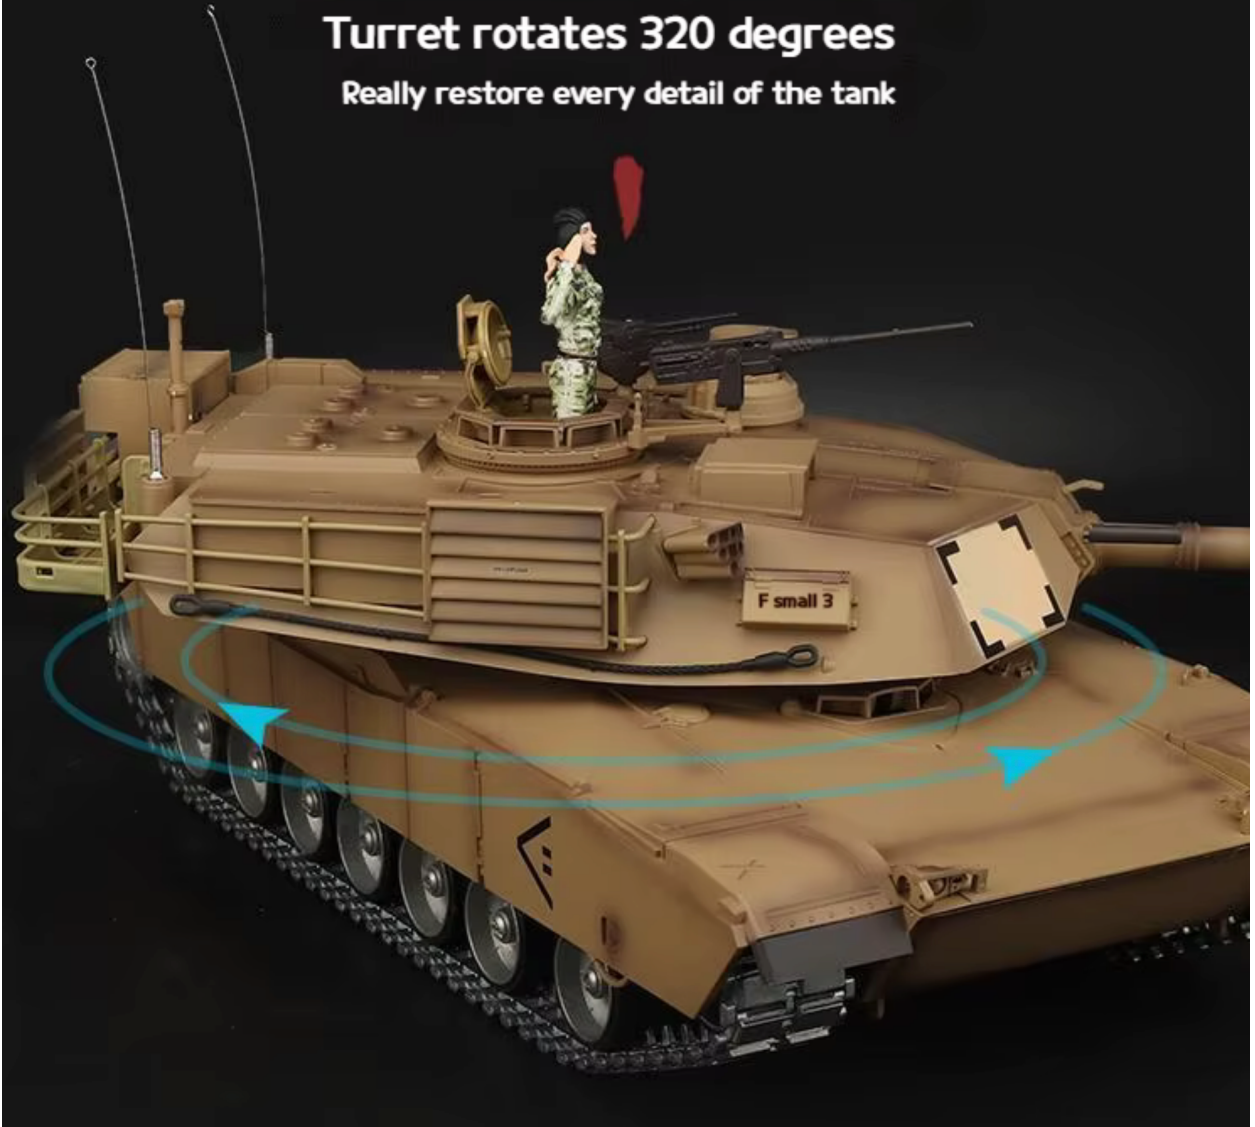

The barrel can be raised and lowered up and down

Really restore every detail of the tank

**Turret rotates 320 degrees**

**Really restore every detail of the tank**

## LED light sky control

11 LED lamp interfaces to realize light switchable control

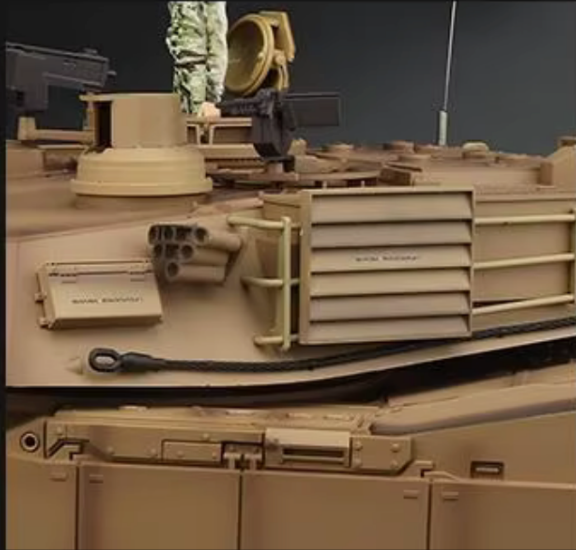

# Road wheel independent suspension system

Adapt to all different terrains

# Details display
